Driving Licence

B

I don't have experience but I love learning new things.

interests

I love technologies, programming, numbers, network, algorithms and data. I'm a young dreamer and "interested in everything" undergraduate. I love Photography and art in general: my aim is to describe and document life by my personal point of view (and by my camera one). I'm a Guitar Player for passion, reader for my knowing addiction and sometimes writer for hobby.

education

September 2013 – Now

Bachelor Degree in Computer Science
University of Trento - DISI
Via Sommarive 5, 38123 Povo (TN) Italy

September 2008 – July 2013

workexperience

September 2012 – Now

WebDeveloper, Project Manager
MickFenneck (myself)
http://www.mickfenneck.com

- Web designer / Front-end Developer
- Graphic designer (ex. advertisements for last politic campaign)
- Photographer
- Analyst and Designer for facing marketing difficulties

15 June 2013 – 21 July 2013

Intern
Bold(TN)
Via Tartarotti 43, 38060 Rovereto (TN)
http://www.studiobold.it

- Web designer / Front-end Developer
- Graphic designer (realisation of books, posters, advertisements, flyers)
- Translator (of letters and projects, Italian-English, English-Italian)

communicationskills

- Student's Delegate for 2 years at School's Council.
- good communication in English: gained through my 3 Cultural Exchanges with Greek students.
- Entertainer in the Church Oratory from the age of 14: organization of many different activities like afternoons with children, summer camps, etc...
- Voluntary Work, in different times and places, for example at SERMIG (Torino – Italy)
- Realization of several projects about ICT and Statistics with groups of classmates

managerialskills

- leadership (acquired during my years of entertainer, my delegate at the School's Council and with the Rock Band I had)
- Instructor: in basic ICT and photography. I've also organized some courses, talks and lessons about photography.
- Good at finding the best parts in things, even in the bad ones.

technologicalskills

- ECDL Certificate (Office Software)
- EUCIP Certificate (Hardware, Software & Network module)
- Use of Github
- C# and C++, C, Python Programming languages for desktop environments.
- HTML5, Javascript, jQuery, LESS, SCSS languages for web development.
- Bootstrap front-end framework (from Twitter) for Front-End development.
- Learning Django (Python) framework.
- Little knowledge in ASP and ASPX technologies for dynamic web programming.
- Database Development with MySql, starting to learn MongoDb.
- Knowledge in use of Raspberry PI with Python (used for my HighSchool Final Thesis - https://github.com/mickfenneck/MickSynth)
- Basic use of Microcontroller (ATM16) with Assembly Language and Arduino.
- Excellent Knowledge in Windows OS and Linux OS (Debian/Ubuntu), good knowledge in Macintosh OS.
- Stanford University's Startup Engineering Online Course on Coursera (no certificate)
- Michigan University's Social Network Analisys Online Course on Coursera (attending now)
- Knowledge in use of Bash Shell of Linux (Ubuntu) and Macintosh.
- Knowledge in use of electronics material like generator, oscilloscopes.
- Excellent Knowledge about use of Adobe Photoshop™, knowledge in Adobe InDesign™, Adobe Illustrator™ and Macromedia FreeHand™ MX.
- Basic use of node.js, I've tried platforms like Nodejitsu & Heroku
- Knowledge in the process of assembling a PC.

extraschoolcourses

- Stanford University's Startup Engineering Online Course on Coursera (no certificate)
- Michigan University's Social Network Analisys Online Course on Coursera (attending now)
- 8 hour-course in Android Programming
- 2 Year of Photography Course at ITT Marconi Rovereto
- Less, SCSS, jQuery and GitHub course at ITT Marconi Rovereto

Sometimes the winner is simply a dreamer who never gave up.

[Jim Morrison]
